# SUMIMARK®

SUMIMARK IV 300 DPI
Printer Utility Centering

If you are experiencing off centering printing, below are steps to realign it using the Printer Utility.

Please visit **www.SumiSupport.com** to download Printer Utility 4.30*.

Compatibility of the utility app with OS of Windows 10 and above is not guaranteed.

Below is the Printer Utility opened showing the main areas you will be using:

Once you have this screen, please follow the steps to change the *Horizontal Offset*:

-On the Printer Setting tab, change the model to *TIA-320E* and Interface to *USB*

-Under *Media*, check the box next to *Horizontal Offset* **(Horizontal Offset is the correct selection)**

-Change the *Shift Value* in increments of 1 (+ or -) then select *Send*.

To change it back to the original setting change value to 0 then select *Send*

It may take some trial and error to get it right where you want it.
